

# Economic sanctions in the Russia Ukraine conflict

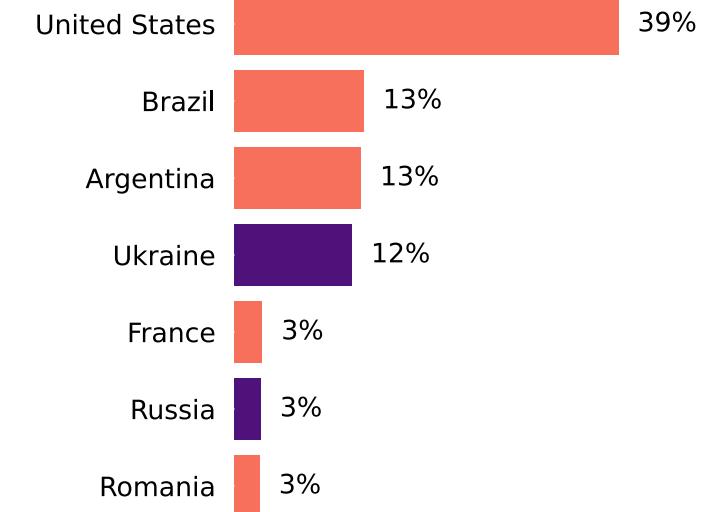

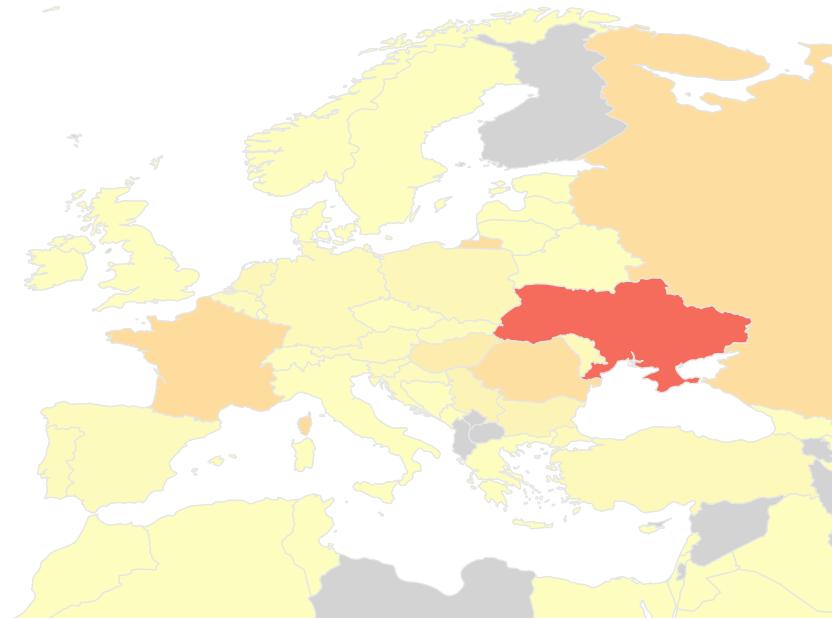

Robbie Sinclair

# Ruble value

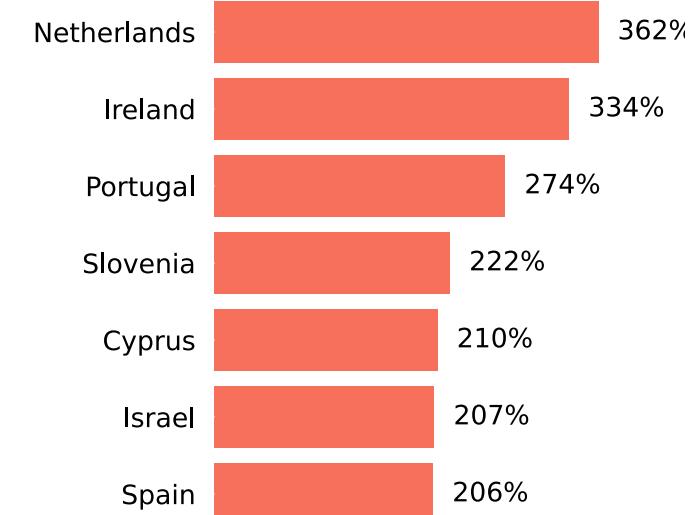

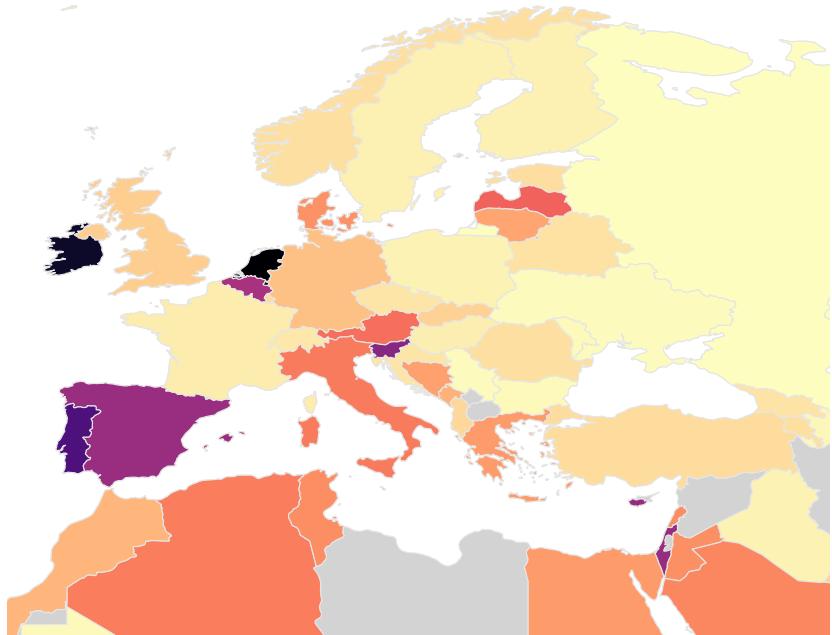

## Corn exports

Russia, and especially Ukraine, are among the largest exporters of cereals. The war will reduce supply globally and increase prices

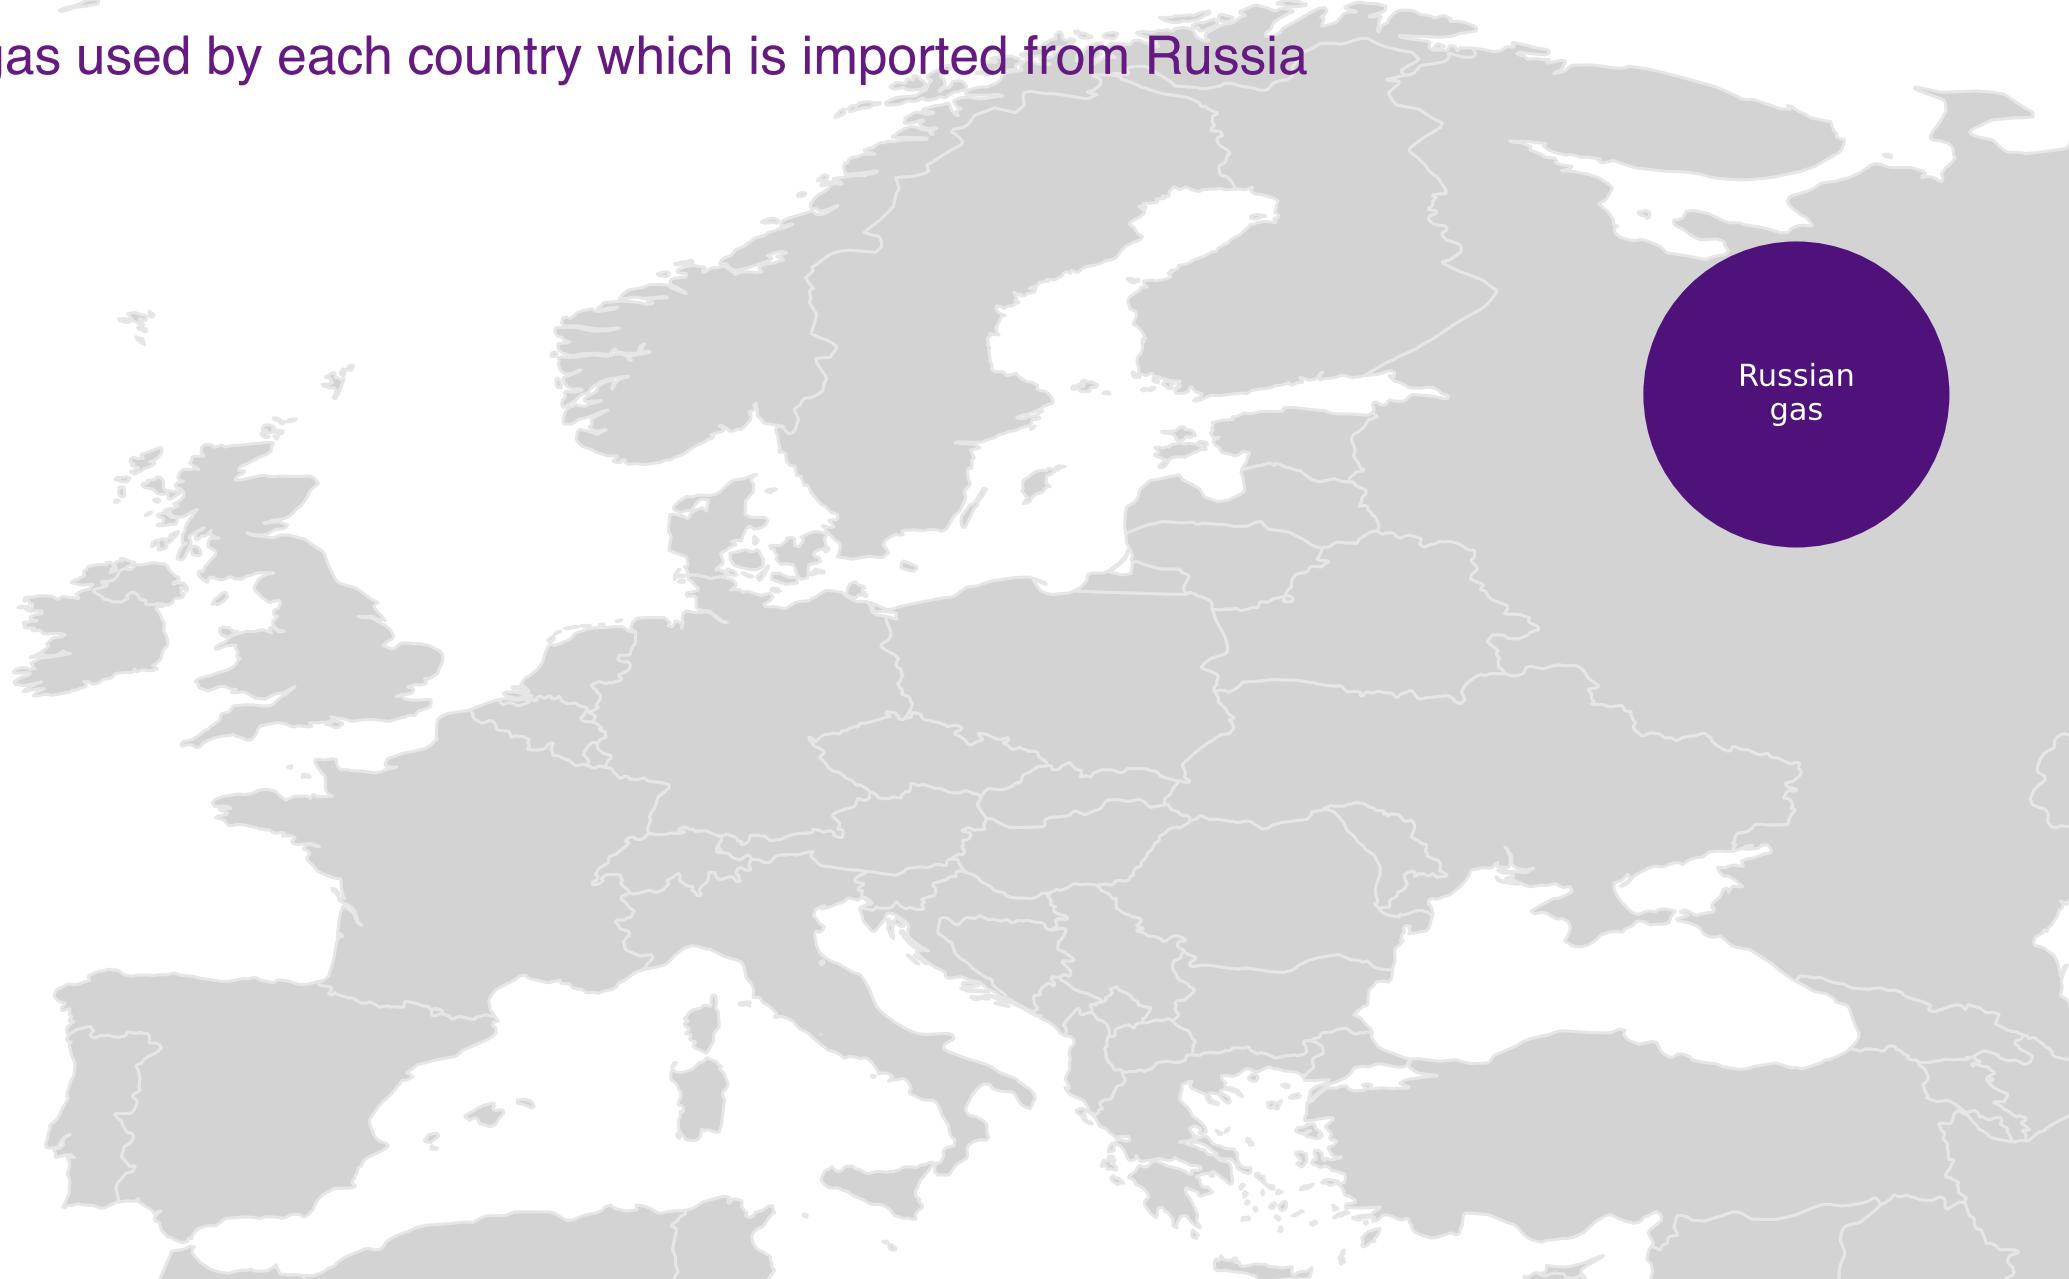

## Corn imports per capita

Many western European countries and north African countries will be affected by this shortage. Countries shaded in darkest colours import more corn per capita.

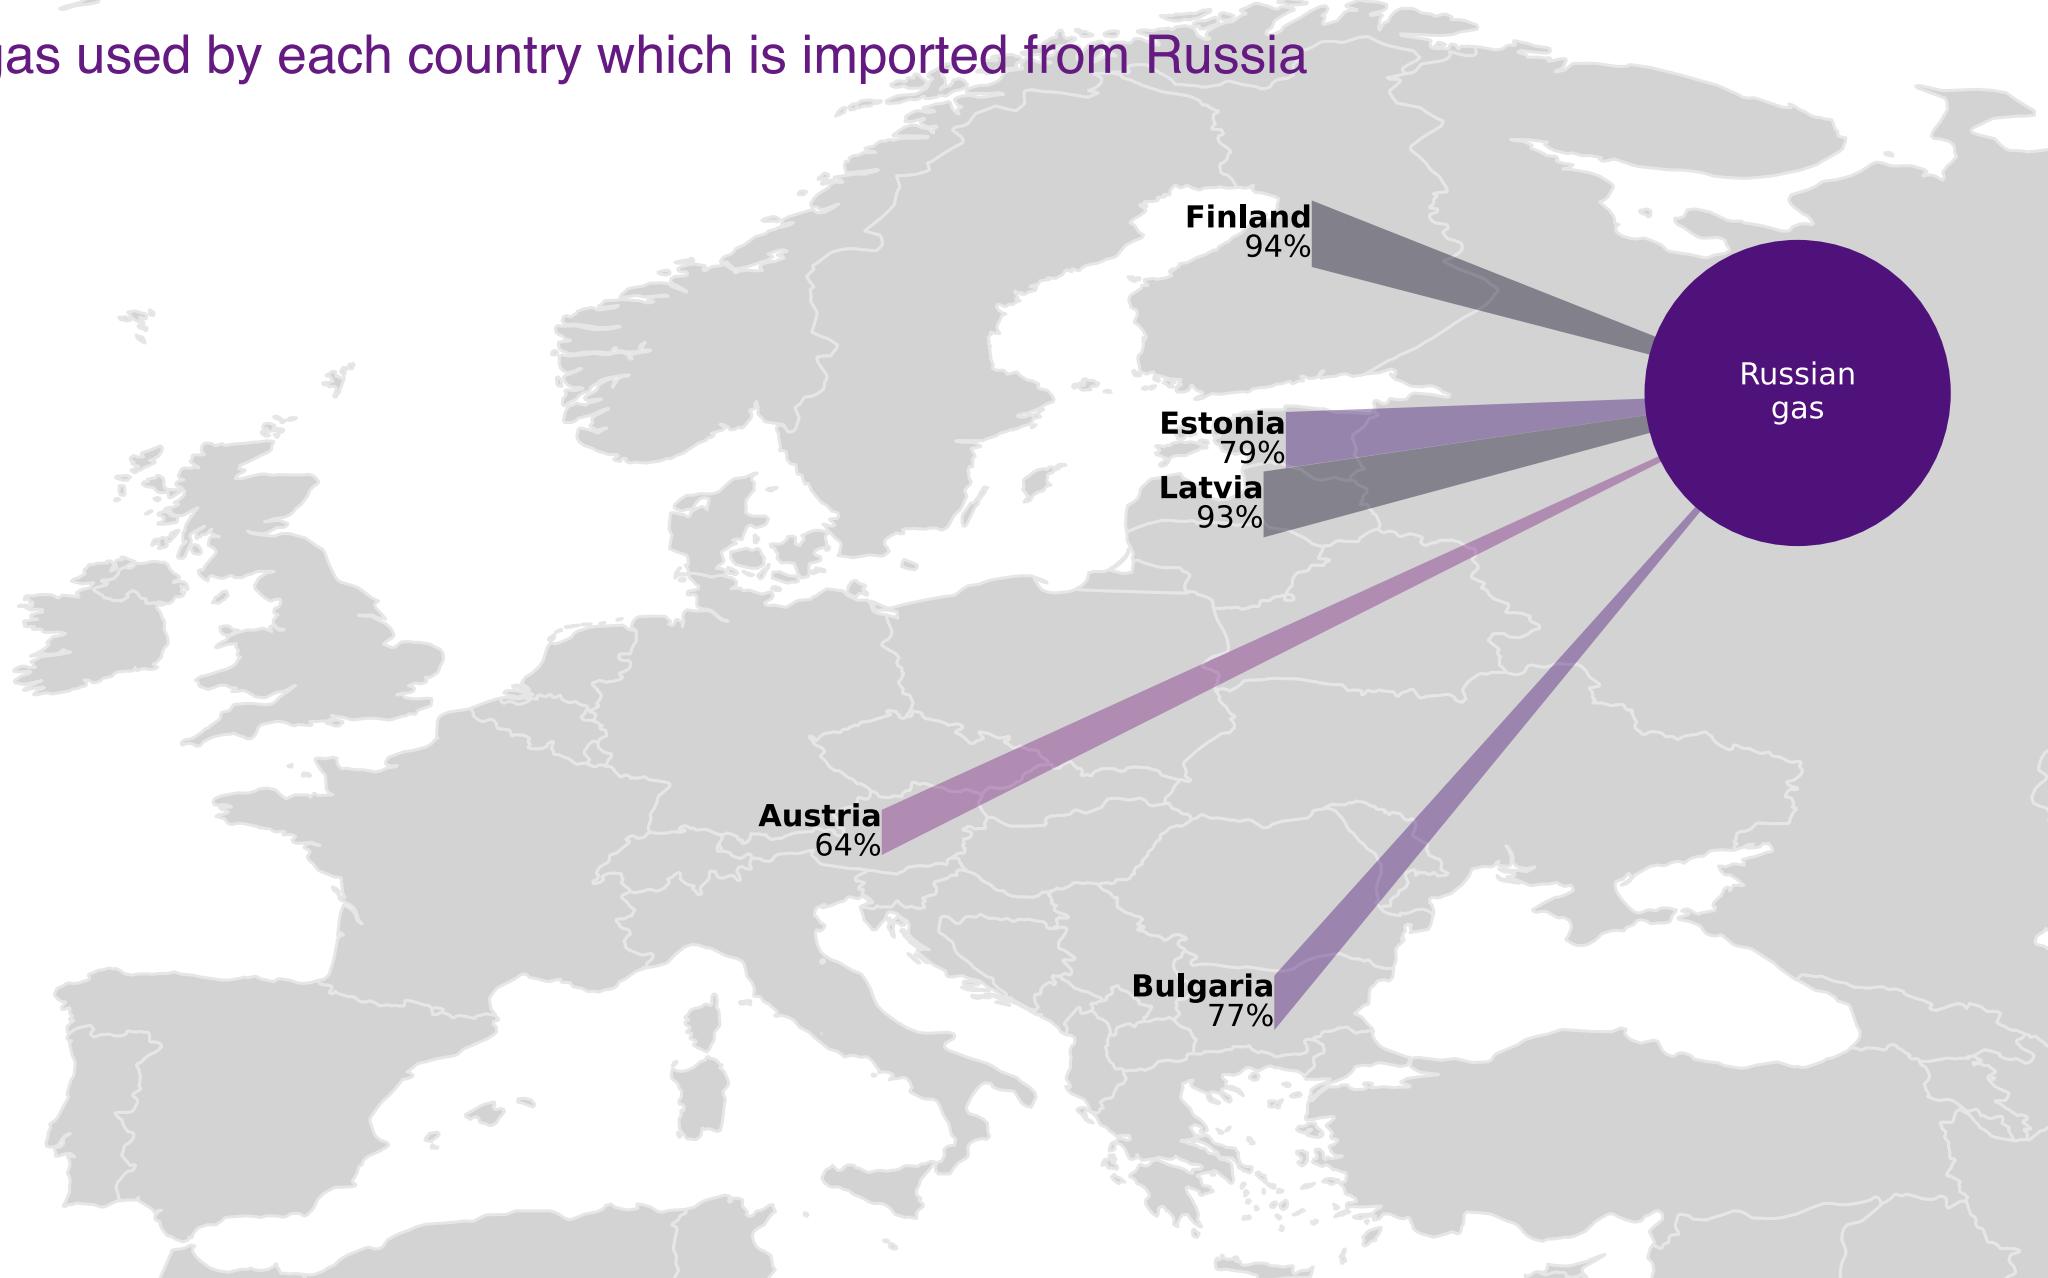

Many European countries are dependent on Russian gas imports

## The percentage of gas used by each country which is imported from Russia

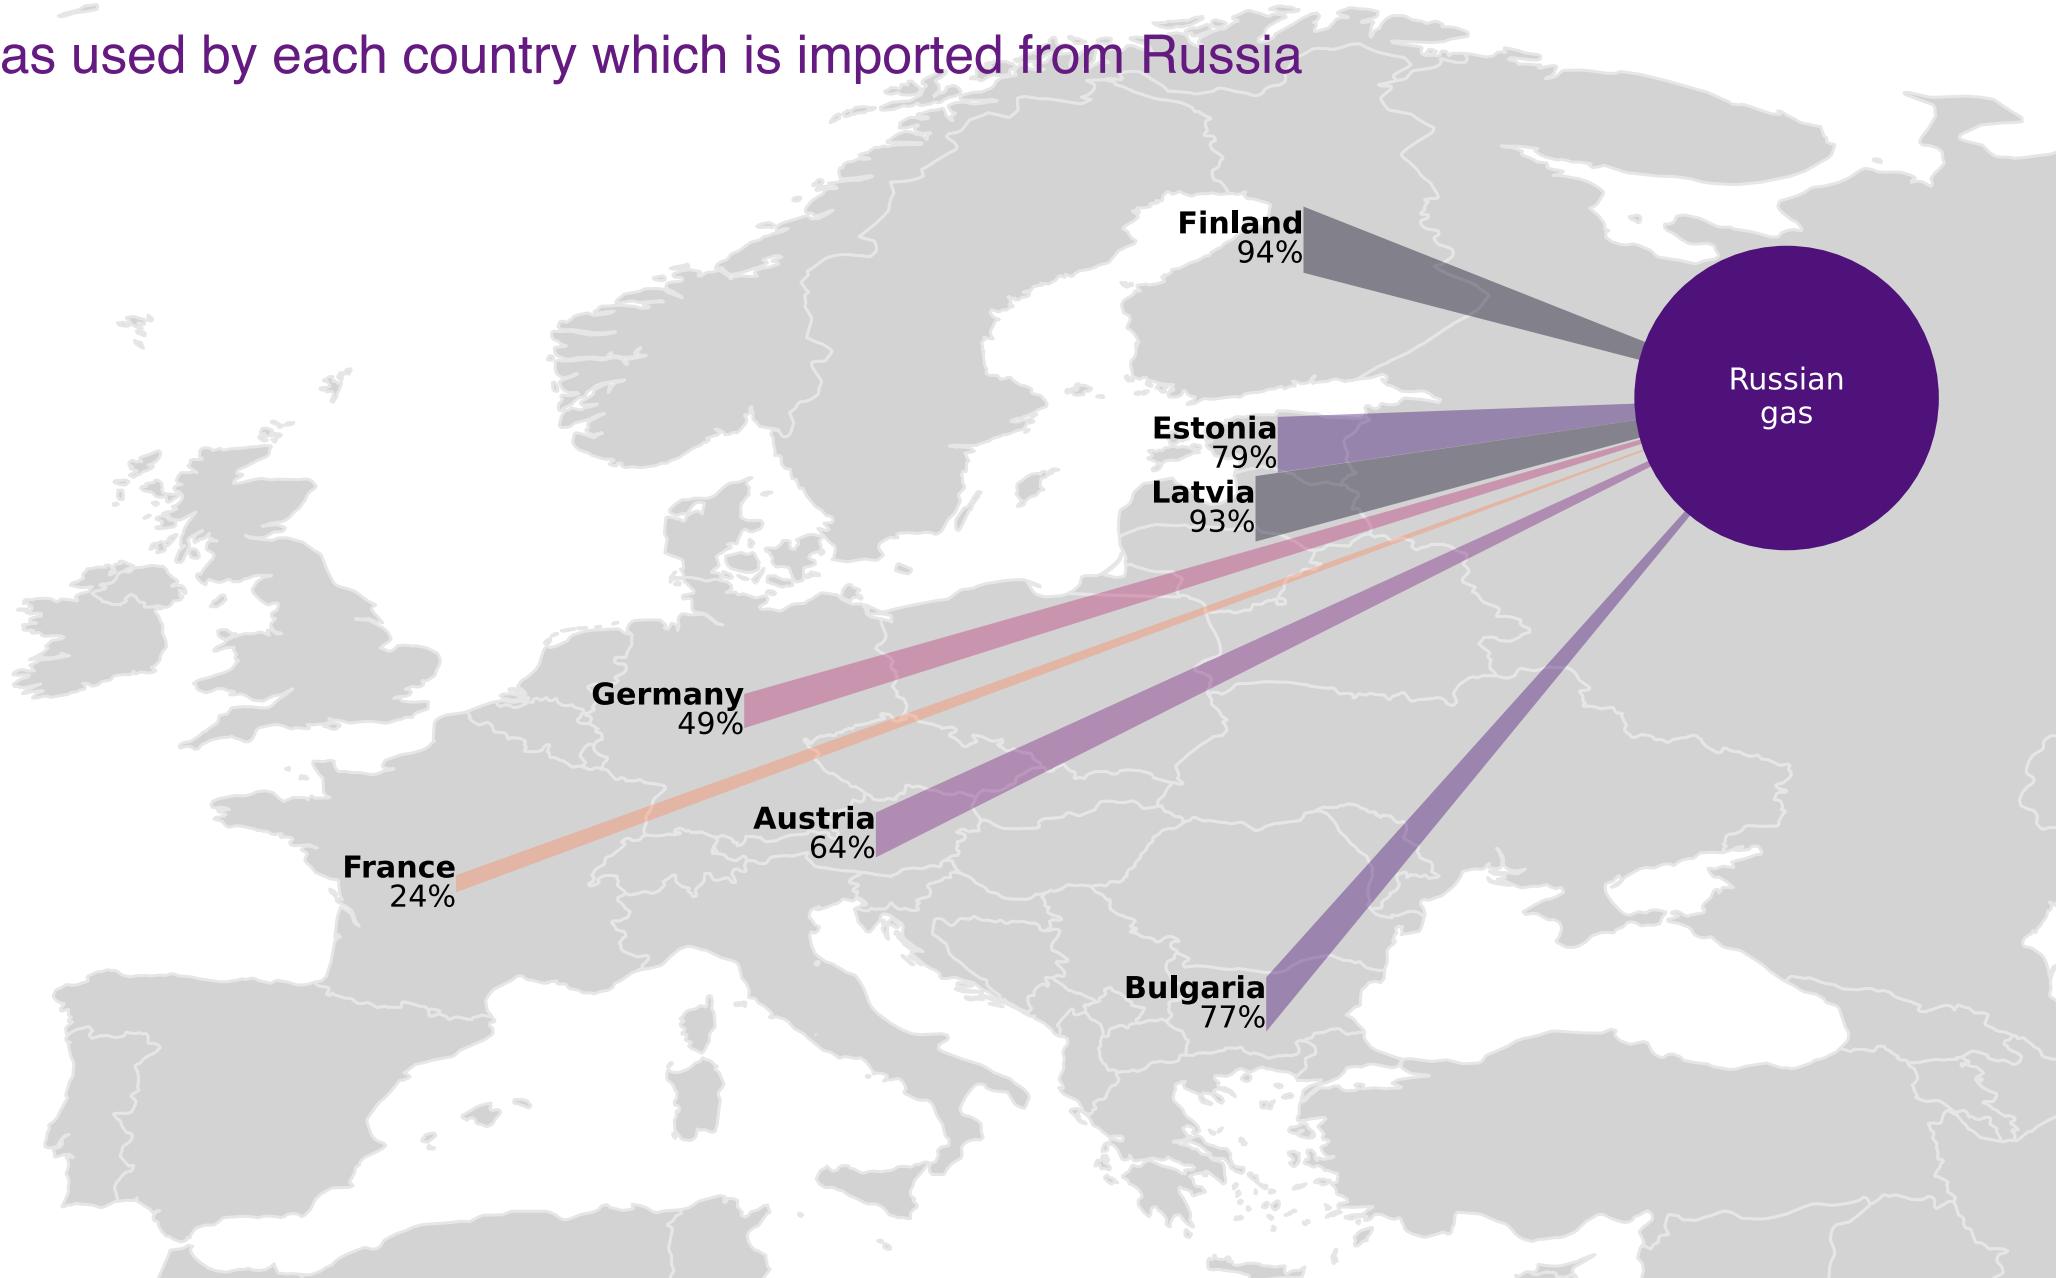

# Many European countries are dependent on Russian gas imports

The percentage of gas used by each country which is imported from Russia

# Many European countries are dependent on Russian gas imports

The percentage of gas used by each country which is imported from Russia
